

COMPANY PROFILE

Amitec Ltd was founded in 1996. The company followed the business of Automatic Controls for Industrial Plants.

Amitec Ltd is divided to three divisions: Software Development, Integration, Service & Maintenance. Each of these divisions specializes in a different field, which complements the activities of the whole.

Amitec Ltd employs skilled software and automation engineers that have vast knowledge and experience, enabling the company to provide comprehensive solutions, bridging the gap between industrial control & automation and the ERP (Enterprise Resource Planning) level of the plant.

Amitec Ltd's managerial method places a great emphasis on a close cooperation with the client for any need or request.

Amitec Ltd is located in two locations in Israel :

The New Industrial Zone in Rishon Le-Zion.
Galgalei Ha'Plada st. Herzelia .

Amitec Ltd employs 25 people.

COMPANY STRUCTURE: PRIVATE COMPANY

Amitec Ltd is a closely-held, privately owned company. The owners of Amitec Ltd and the board members ,Segev Yehuda and Hanita, are actively involved in the day-to-day operation of the company as joint general managers.

Amitec Ltd has an excellent financing reputation derived from the management policy to support the company's activities by it's own capital. As a strict company policy, Amitec Ltd precisely fulfills it's payments agreements and commitments to the various suppliers, local and abroad. Amitec bankers are Bank Poalim – Rishon Lezion .
